Box mine which is an extension of the and another man saw five Indians in pulmonary complaints. As proof we once reared its crest much higher, and that the washing away of its support caused it to fall over; the same caused again interfering to cover it up. A shaft is down 90 feet on the vortical safe is down 90 feet on the large mine. The wheat yield of California is estimated this year at 33-foot that the claim is a valuable one. The work and the regent in Old Hat District, for several thousand dollars. One by one our old prospectors are being paid for their long and safe in the claim is a valuable one. The work and safe is down 10 old backelors who have been and double, always on hand.

Saddle flows and the regent and safe is the claim is a valuable one. The work and safe is down to the claim is a valuable one on the large man. All kinds of fractions of the claim is a valuable one drift 50 feet norm and 46 feet south, from which is being taken the ore from which the mill is now being supplied. This shaft, however, will supplied. This shaft, however, will nast year, it now looks as though the grade ore, and a tuniver mine, will range much lower that for the supplied. This shaft, however, will nast year.

Mrs. A. T. Stewart. Since Stewart died, the bed chamber wherela he breathed his last has been unoccupied, the widow preferring to climb one flight of stairs rather than sleep in a room fall of such mouraful P. R. TELLY. associations. She resides alone, attakes, omissions and ignorance I may tended only by servants, and every night goes up to the third story, where her room now is. On the second floor there is only one bedroom-that in which the merchant-prince died-the rest of the apartments consisting of a Sr. Locis ... ments altogether, although she is 80 years of age, and goes to dinner parties "down on Arizona" For the life of diamonds that fla-hed so that a guest lights are needed when Mrs. Stewart is present. Her diamond solitaire ear without a flaw; they are literally gems of purest ray serene." Mrs. ful and well proportioned, and now she looks younger than ever, because of a coiffure made in one piece by a percuial Cornelia. Mrs. Stewart is a TELEGRAPHIC TRANSFERS OF MONEY voman of much goodness of heart, person should at her time of life However, she is mistress of her own actions. She has already relinquished crape and bombazine for flounces and white flowers and other insigna of half morning, and she does not appear al together inconsolable. She is not very near sighted, but otherwise seems as little like a woman of four score as can be imagined. She told a friend

[Painesville Advertiser.]

The extent of the mining industries of our country are far from being generally understood or appreciated, eswaters meander. The banks on mining of gold and silver and the citizens of Painesville are interested

while other methods cost from \$15 to \$20, and lose from 15 to 50 per cent, of

The Biggest Gambling on Record.

[From the London Telegraph.] Play has run so high of late at the Rattlesnakes and tarantulas are not as gains and losses have been brought hands, within a week, of no less a sum The most exaggerated reports have | than £500,000 in the play rooms of the the Signal Service report. Ordinarily Loris Melikoff, who deemed it his the Territory as oppressive as that of ing disaster to the jounesse doroe of Marysville and Oroville, Californina, the Russian capital was averted through the interposition of the Grand Arizona is a wenderful country; Duke Visdimir; but the Czar sent for

> The Great Opium Speculation. [From Bullion.]

It is now pretty well known that a New York syndicate has a corner on the world's supply of Turkish opium. The average annual consumption of this drug is about 6,000 cases, or 500 cases (150 pounds each) per mouth dezvous for the mining men who are year. The syndicate now hold 1,500 conducting operations in Mexico. As cases here, and about 500 cases in A board of survey to consist of the excitement in New York has ers are ready to secure the new crop. Licut. Col. La Motte, Licut. Wother | measurably subsided it might also be | This leaves but a part of the next two | BOORS, SASH, BLINDS, MOULDINGS spoon and Lieut, Wilcox have been a good idea for some of our California months' supply in the market. The appointed to meet at Whipple Depot refugees to head for Missouri's metrop bond, \$1 duty, and in 1868, when the at 10 o'clock a. m. on Monday, the 9th olis. We are pleased to notice that crop was only 1,900 cases, or 100 more at 10 o'clock a. m. on Monday, the 9th the interest in legitimate mining than this year's, the price rose to steadily increases. The more mining \$12.50 in bond, and \$2.50 duty, and premium on gold, making \$20 per premium on gold, making \$20 per pound currency For these reasons the syndicate expects to make a great the syndicate expects to make a great shipment of stores from Maricopa to mineral wealth of this Coast is to day profit. As the leading man in the syndicate is said to be worth \$20,000,-000, and the other members are wealthy, they will have plenty of funds to buy and hold.

THE invigorating air of Arizona FEED AND SALE STABLES poscesses peculiar properties aside GEO GOULD, who came in from the south, this afternoon, reports that he from being the finest in the world for
